

# Smarten Up Your Workflow with SmartSample™

## Import Data

- Paper
- Barcode
- LIMS

## Weigh

**Secure and efficient data input**  
Eliminate transcription errors associated with data input – all sample information together with the weight are wirelessly transferred to the chip (SmartTag™) on the titration beaker.

## Transfer

**No mix-ups**  
No matter where you put your sample, all information stays on the SmartTag avoiding mix-up errors throughout your workflow.

## Titrate

**Simple and secure analysis**  
All sample information on the tag is automatically transferred to your Excellence titrator for simple and secure analysis.

## Export Data

- Live Display
- Printer
- USB Stick
- Network
- Computer
